

 The University of British Columbia Board of Governors	Policy No.: 91	Approval Date: February 1984 Last Revision:
	Responsible Executive: Vice-President, Research	
Title: Purchase of Animals for Research and Teaching		
Background & Purposes:		

1. General

- 1.1. All acquisitions of animals to be used for teaching and/or research purposes, except livestock for the Faculty of Agricultural Sciences, must be made through the Director of Animal Care.
- 1.2. Blue requisitions (UBC Form B-4) for the purchase of animals (including open orders) must, in every instance, be sent to the Director of Animal Care. Orders will be processed only if the requisition includes the reference number of the “UBC Animal Care Certificate” based on the approved protocol for the course or the research project.
- 1.3. It is the responsibility of the Director of Animal Care to ensure that animals are supplied in accord with the policies of the Canadian Council for Animal Care and of The University of British Columbia.
